Subject: New Course Proposal Forms with Accompanying Syllabi

As you are likely aware the Florida Board of Governors in November of 2015, approved the School of Social Work to offer the degree of Doctor of Social Work (DSW). We are very excited to admit our inaugural class Fall semester of 2016, therefore we are working diligently to get everything in place for their arrival.

Attached you will find the *New Course Proposal* forms (July, 2015 edition), copies of correspondence between Social Work and other departments regarding duplication of courses, and copies of the course syllabi. These materials were previously submitted to the GPC when we proposed the DSW program originally. Hence what you will find attached are the revisions and corrections as per the GPC's suggestions.

The documents enclosed encompass the course work as approved by the Board of Governors for the first year of study in the program. They are as follows:

- Theories & Epistemology of Social Work Clinical Practice (Fall, 2016)
- Clinical Social Work Research & Statics I (Fall, 2016)
- Social Work Pedagogy (Spring, 2017)
- Evidence-based informed practices with individuals & implementing evidence-based informed practices with individuals (Summer I, 2017)
- Clinical Social Work Supervision, Management, & Administration (Summer I, 2017)

If I can provide any further clarification or information please let me know. Thank you for your review.

Dear John,

I reviewed these courses and see no significant overlap between these and graduate courses offered in the College of Nursing. Let me know if there is any other way that I can support your development of the DSW.

Good morning Marlaine,

The School of Social Work is in the process of seeking approval for the Doctor of Social Work degree.

I am attaching some course syllabi and would be enormously grateful if your office could quickly peruse them to ensure that they are not duplicates of courses that are offered in your programs. I doubt that they are; but we want to cover all our bases.

Would this be possible?

We are hoping to forward these syllabi and your comments to the GPC for their March 18 meeting.

We greatly appreciate your help.

All good regards,

John.

## **ASSIGNMENTS:**

This course requires completion of the following 3 assignments:

1) Clinical Assessment; including the use of measurement tools (30% of grade). From your current or past case files, select an individual client. Prepare a thorough assessment that includes the use of various tools and measures that provide a full description of strengths, deficits, and areas for required intervention. (4-5 pages plus bibliography, double spaced, 12 font) **Due Week 4**

2) SW EBP Clinical Treatment Options Analysis (45% of grade) – Write a paper in which you consider treatment options for the case used in Paper 1 from at least 2-3 evidence-based theoretical orientations. Because this course seeks to ensure that practitioners have sophisticated understanding of intervention options from various theoretical perspectives, choose at least two (preferably three) models of intervention that might benefit the client. Compare and contrast the benefits and disadvantages of each treatment modality. A thorough understanding of these treatment modalities is necessary to competently make a determination of the best modality. Include an method for evaluation of the clinical outcomes. In evaluating the outcome of this case, ensure that supportive and relevant literature is provided to demonstrate whether the outcome of this individual case is consistent or inconsistent with the research literature. **Due week 8**

3) Case presentation in class (with Powerpoint) – (15% of grade) Do a professional level case presentation of the material from Assignments 1&2. Each presentation should be of sufficient depth and breadth that will demonstrate mastery of these theoretical modalities. Presenter should encourage discussion of the case in the class. Presentations should be in the range of 45 minutes. The last 4 classes will be dedicated to student presentations. Instructor will arrange the presentation schedule. Students must provide classmates with a copy of assignments 1&2 a week before they present their case presentations.

Participation/Attendance (10%) Students are expected to attend all classes and engage productively as well as professionally in class discussions.

Total: 100%
