

Step Two: Site Map

Now that goals and audience are properly defined next is site map creation.

Steps to Use Slick Plan:

1. You will receive an email from slick plan containing your username and temporary password.
2. After logging in you will see your dashboard.

3. From this dashboard you can start creating your hierarchal site map. Below are some examples to reference.

<https://demos.slickplan.com/cprytfemg>

4. Begin creating your sitemaps, you can collaborate with your team in this environment.
5. If you need help with making edits you can reach out to the web team or use this website to search for common questions: <https://help.slickplan.com/hc/en-us/>
