

# The Exploratory Owl Newsletter

University Advising Services - Issue 1

September 2021

FLORIDA ATLANTIC UNIVERSITY

## Letter from our Advisor

Hello Owls!

We are so excited to be back on campus and see so many of you!

This is our first issue, and we are excited to share this with you! We created this newsletter to inform you of opportunities and keep you updated with news and upcoming events that may be of interest to you. This newsletter will go out on the first of every month, each semester.

At University Advising Services, we have a team of highly motivated and dedicated Academic Advisors who are ready to help you Discover your passion, help you visualize your Dream, and work with you to Design the path to success!

We recommend you reach out to your advisor now so you can begin planning for the following semester. Please keep in mind that Spring 2022 registration begins the week of November 1<sup>st</sup>. Please log on to My Success Network to schedule your appointment with an advisor:

<https://www.fau.edu/successnetwork/>

On behalf of all of us here at University Advising Services, I want to say welcome to campus, and we hope to make this the most exciting semester yet!

Go Owls!

Heinz Alfredo Fernandez, M.Ed.

# Student Spotlight!

Rachel Z.

What major did you decide on? Why did you choose this major?

- I decided on a major in Biology and a minor in political science. I chose this major because I want to become an environmental lawyer and having a background in biology will help me achieve that.

What assistance or resources helped you decide your major?

- My love of nature and growing up in Florida around all the wildlife. As well as the realization that in order to help conservation I needed to have a strong foundation in biology and political science to help navigate the law field and allocate the proper funding and help.

What advice do you have for other students deciding on a major?

- Choose something you can see yourself doing for a long time, something that will grow with you as a person. Make sure you do your work, and you make connections with people, because that will be your foundation to learning how your field works.

Did you recently decide your major? Tell us your story to be featured!
